Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ First Industrial Realty Trust, Inc. redeemed all of the outstanding depositary shares relating to its Series G Flexible Cumulative Redeemable Preferred Stock at a redemption price of \$1,000 per depositary share. [Notice of Redemption Date - 2/3/2014; Settlement Date - 3/31/2014]

The Company paid all accrued and unpaid dividends on the redeemed Series G Preferred Stock through the date of redemption.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ The redemption will be treated as a sale or exchange within the meaning of IRC Section 302(b) if it (a) is "substantially disproportionate" with respect to the holder; (b) results in a "complete termination" of the holder's share interest in First Industrial Realty Trust, Inc; or (c) is "not essentially equivalent to a dividend" with respect to a particular holder. In determining whether any of these tests have been met, depositary shares considered to be owned by the holder by reason of certain constructive ownership rules set forth in the IRC, as well as depositary shares actually owned by the holder must generally be taken into account. If a particular holder of depositary shares owns (actually or constructively) no shares of our common stock, or an insubstantial percentage of the outstanding shares of common stock, a redemption of shares of that holder is likely to qualify for sale or exchange treatment because the redemption would not be "essentially equivalent to a dividend." However, because the determination as to whether any of the alternative tests of Section 302(b) will be satisfied with respect to any particular holder depends on the facts and circumstances at the time that the determination must be made, shareholders are advised to consult their own tax advisors to determine such tax treatment.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ Each shareholder must determine their adjusted tax basis in the redeemed shares in order to calculate the gain or loss to recognize. We encourage shareholders to consult with their personal tax advisors as to their adjusted tax basis in the redeemed shares and the specific tax treatment.
