PART T

ITEM 1. BUSINESS

THE COMPANY

GENERAL

First Industrial Realty Trust, Inc. is a Maryland corporation organized on August 10, 1993, and is a real estate investment trust ("REIT") under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). First Industrial Realty Trust, Inc. and its consolidated partnerships and limited liability companies (the "Company") is a self-administered and fully integrated real estate company which owns, manages, acquires, sells and develops industrial real estate. The Company completed its initial public offering in June 1994 (the "Initial Offering"). Upon consummation of the Initial Offering, the Company owned 226 industrial properties which contained an aggregate of 17.4 million square feet of gross leasable area ("GLA"). As of December 31, 1999, the Company's portfolio consisted of 545 light industrial properties, 152 bulk warehouse properties, 149 R&D/flex properties, 76 regional warehouse properties and 45 manufacturing properties containing approximately 67.0 million square feet of GLA located in 25 states.

The Company's interests in its properties and land parcels are held through partnerships controlled by the Company, including First Industrial, L.P. (the "Operating Partnership"), of which the Company is the sole general partner, as well as, among others, First Industrial Financing Partnership, L.P. (the "Financing Partnership"), First Industrial Securities, L.P. (the "Securities Partnership"), First Industrial Mortgage Partnership, L.P., First Industrial Pennsylvania, L.P., First Industrial Harrisburg, L.P., First Industrial Indianapolis, L.P., First Industrial Development Services, L.P. and TK-SV, LTD., of which the sole general partner of each is a wholly-owned subsidiary of the Company, and the sole limited partner of each is the Operating Partnership, as well as limited liability companies of which the Operating Partnership is the sole member. The Company is also the majority economic stockholder of First Industrial Enterprises of Michigan, Inc. and FR Development Services, Inc. The Company, through separate wholly-owned limited liability companies of which the Operating Partnership is the sole member, also owns 10% equity interests in, and provides asset and property management services to, two joint ventures which invest in industrial properties.

The Company utilizes an operating approach which combines the effectiveness of decentralized, locally based property management, acquisition, sales and development functions with the cost efficiencies of centralized acquisition, sales and development support, capital markets expertise, asset management and fiscal control systems. At March 10, 2000, the Company had 269 employees

The Company has grown and will seek to continue to grow through the development of industrial properties and acquisition of additional industrial properties.

BUSINESS OBJECTIVES AND GROWTH PLANS

The Company's fundamental business objective is to maximize the total return to its stockholders through increases in per share distributions and increases in the value of the Company's properties and operations. The Company's growth plan includes the following elements:

- Internal Growth. The Company seeks to grow internally by (i) increasing revenues by renewing or re-leasing spaces subject to expiring leases at higher rental levels; (ii) increasing occupancy levels at properties where vacancies exist and maintaining occupancy elsewhere; (iii) controlling and minimizing property operating and general and administrative expenses; (iv) renovating existing properties; and (v) increasing ancillary revenues from non-real estate sources.
- External Growth. The Company seeks to grow externally through (i) the development of industrial properties; (ii) the acquisition of portfolios of industrial properties, industrial property businesses or individual properties which meet the Company's investment parameters; and (iii) the expansion of its properties.

BUSINESS STRATEGIES

The Company utilizes the following six strategies in connection with the operation of its business:

- organization Strategy. The Company implements its decentralized property operations strategy through the use of experienced regional management teams and local property managers. Each operating region is headed by a managing director, who is a senior executive officer of, and has an equity interest in, the Company. The Company provides acquisition, development and financing assistance, asset management oversight and financial reporting functions from its headquarters in Chicago, Illinois to support its regional operations. The Company believes the size of its portfolio enables it to realize operating efficiencies by spreading overhead over many properties and by negotiating quantity purchasing discounts.
- Market Strategy. The Company's market strategy is to concentrate on the top 25 industrial real estate markets in the United States. These 25 markets were selected based upon (i) the strength of their industrial real estate fundamentals, including increased industrial demand expectations from e-commerce and supply chain management; (ii) their history and future outlook for continued economic growth and diversity; and (iii) a minimum market size of 100 million square feet of industrial space. Due to this new market strategy, the Company plans on exiting the markets of Cleveland, Columbus, Dayton, Des Moines, Grand Rapids, Hartford, New Orleans/Baton Rouge, and Long Island. The net proceeds from the sales of properties in these markets will be used to bolster the Company's holdings in Atlanta, Baltimore/Washington, Chicago, Cincinnati/Louisville, Dallas/Fort Worth, Denver, Detroit, Harrisburg/Central Pennsylvania, Houston, Indianapolis, Los Angeles, Milwaukee, Minneapolis, Nashville, Northern New Jersey, Philadelphia, Phoenix, Portland, Salt Lake City, St. Louis and Tampa and to potentially enter new markets which fit its market strategy.
- Disposition Strategy. As mentioned in the Market Strategy section above, the Company is planning to exit the markets of Cleveland, Columbus, Dayton, Des Moines, Grand Rapids, Hartford, New Orleans/Baton Rouge, and Long Island. The Company also continues to evaluate local market conditions and property-related factors in its other markets and will consider disposition of select assets.
- Acquisition/Development Strategy. The Company's acquisition/development strategy is to concentrate on the top 25 markets mentioned in the Market Strategy section above. The Company will use its Integrated Industrial Solutions TM capabilities to target these markets. Of the 967 properties in the Company's portfolio at December 31, 1999, 230 properties have been developed by either the Company or its former management. The Company will continue to leverage the development capabilities of its management, many of whom are leading developers in their respective markets. In 1996, the Company formed First Industrial Development Services, L.P. to focus on development activities.
- Financing Strategy. The Company plans on utilizing net sales proceeds from property sales as well as borrowings under its \$300 million unsecured line of credit to finance future acquisitions and developments.
- Leasing and Marketing Strategy. The Company has an operational management strategy designed to enhance tenant satisfaction and portfolio performance. The Company pursues an active leasing strategy, which includes aggressively marketing available space, renewing existing leases at higher rents per square foot and seeking leases which provide for the pass-through of property-related expenses to the tenant. The Company also has local and national marketing programs which focus on the business and brokerage communities and national tenants.

RECENT DEVELOPMENTS

In 1999, the Company acquired or completed development of 40 properties, developed one expansion and acquired several parcels of land for a total investment of approximately \$178.9 million. The Company also sold 56 in-service properties and several parcels of land for a gross sales price of approximately \$245.8 million. At December 31, 1999, the Company owned 967 in-service properties containing approximately 67.0 million square feet of GLA.

On September 2, 1999, the Company, through a wholly-owned limited liability company in which the Operating Partnership is the sole member, entered into a joint venture arrangement (the "September 1999 Joint Venture") with an institutional investor to invest in industrial properties. The Company, through wholly-owned limited liability companies in which the Operating Partnership is the sole member, owns a 10% equity interest in the September 1999 Joint Venture and provides property and asset management services to the September 1999 Joint Venture. As of December 31, 1999, the September 1999 Joint Venture owned 39 industrial properties comprising approximately 1.2 million square feet of GLA.

During the period January 1, 2000 through March 10, 2000, the Company acquired or completed development of 11 industrial properties and acquired two land parcels for a total estimated investment of approximately \$33.5 million. The Company also sold six industrial properties and two land parcels for approximately \$41.5 million of gross proceeds.

In March 2000, the Company declared a first quarter 2000 dividend of \$.62 per share/unit on its common stock/units which is payable on April 17, 2000. The Company also declared preferred stock dividends of \$.59375 per share on its 9 1/2%, \$.01 par value, Series A Cumulative Preferred Stock, \$54.688 per share (equivalent to \$.54688 per Depositary Share) on its 8 3/4%, \$.01 par value, Series B Cumulative Preferred Stock, \$53.906 per share (equivalent to \$.53906 per Depositary Share) on its 8 5/8%, \$.01 par value, Series C Cumulative Preferred Stock, \$49.687 per share (equivalent to \$.49687 per Depositary Share) on its 7.95%, \$.01 par value, Series D Cumulative Preferred Stock and \$49.375 per share (equivalent to \$.49375 per Depositary Share) on its 7.90%, \$.01 par value, Series E Cumulative Preferred Stock, respectively, which is payable on March 31, 2000.

In March 2000, the Company's Board of Directors approved the repurchase of up to \$100 million of the Company's common stock. The Company will make purchases from time to time, if price levels warrant, in the open market or in privately negotiated transactions. Stock repurchases will be funded from internally generated funds.

FUTURE PROPERTY ACQUISITIONS, DEVELOPMENTS AND PROPERTY SALES

The Company has an active acquisition and development program through which it is continually engaged in identifying, negotiating and consummating portfolio and individual industrial property acquisitions and developments. As a result, the Company is currently engaged in negotiations relating to the possible acquisition and development of certain industrial properties located in certain of the Company's top 25 markets.

The Company also has an active sales program. As a result, the Company is currently engaged in negotiations relating to the possible sales of certain industrial properties in the Company's current portfolio.

When evaluating potential industrial property acquisitions and developments, as well as potential industrial property sales, the Company will consider such factors as: (i) the geographic area and type of property; (ii) the location, construction quality, condition and design of the property; (iii) the potential for capital appreciation of the property; (iv) the ability of the Company to improve the property's performance through renovation; (v) the terms of tenant leases, including the potential for rent increases; (vi) the potential for economic growth and the tax and regulatory environment of the area in which the property is located; (vii) the potential for expansion of the physical layout of the property and/or the number of sites; (viii) the occupancy and demand by tenants for properties of a similar type in the vicinity; and (ix) competition from existing properties and the potential for the construction of new properties in the area.

INDUSTRY

Industrial properties are typically used for the design, assembly, packaging, storage and distribution of goods and/or the provision of services. As a result, the demand for industrial space in the United States is related to the level of economic output. Historically, occupancy rates for industrial property in the United States have been higher than those for other types of commercial property. The Company believes that the higher occupancy rate in the industrial property sector is a result of the construction-on-demand nature of, and the comparatively short development time required for, industrial property. For the five years ended December 31, 1999, the occupancy rates for industrial properties in the United States have ranged from 92.5%* to 92.8%*, with an occupancy rate of 92.8%* at December 31, 1999.

TENANT AND LEASE INFORMATION

The Company has a diverse base of more than 2,900 tenants engaged in a wide variety of businesses including manufacturing, retail, wholesale trade, distribution and professional services. Most leases have an initial term of between three and five years and provide for periodic rental increases that are either fixed or based on changes in the Consumer Price Index. Industrial tenants typically have net or semi-net leases and pay as additional rent their percentage of the property's operating costs, including the costs of common area maintenance, property taxes and insurance. As of December 31, 1999, approximately 96% of the GLA of the properties was leased, and no single tenant or group of related tenants accounted for more than 1.1% of the Company's rent revenues, nor did any single tenant or group of related tenants occupy more than 1.4% of the Company's total GLA as of December 31, 1999.

The following table shows scheduled lease expirations for all leases for the Company's properties as of December 31, 1999.

The Company's dividend policy is to meet the minimum distribution required to maintain the Company's REIT qualification under the Internal Revenue Code.

- (a) In conjunction with obtaining a \$300.0 million mortgage loan on June 30, 1994 (the "1994 Mortgage Loan"), the Company, through the Financing Partnership, purchased an interest rate protection agreement (the "1994 Interest Rate Protection Agreement"), which effectively limited the interest rate during the initial five-year term of the 1994 Mortgage Loan to 7.20% per annum. Effective July 1, 1995, the Company replaced the 1994 Interest Rate Protection Agreement with new interest rate protection agreements and entered into interest rate swap agreements (together, the "1995 Interest Rate Protection Agreements") which effectively fixed the annual interest rate on the 1994 Mortgage Loan at 6.97% for six years through June 30, 2001. As a result of the replacement of the interest rate protection agreement, the Company incurred a one-time loss of approximately \$6.4 million. On May 16, 1997, the Company sold the 1995 Interest Rate Protection Agreements, resulting in a gain of approximately \$1.4 million. The \$8.5 million loss on disposition of interest rate protection agreements for the year ended December 31, 1998 represents the Company's settlement, through the Operating Partnership, of an interest rate protection agreement that was scheduled to expire on January 4, 1999. This agreement was entered into in December 1997 in anticipation of 1998 senior unsecured debt offerings. Due to the changing market conditions and the Company's expectation that it would not issue debt securities associated with the interest rate protection agreement, the Company settled its position in the interest rate protection agreement.
- (b) Represents a restructuring charge of \$6.9 million relating to severance costs (of which \$1.2 million is noncash relating to immediate vesting of restricted stock) and \$5.0 million in costs relating to abandoned acquisitions.
- (c) In 1996, the Company terminated certain revolving credit facilities. The Company recorded an extraordinary loss of \$2.3 million which is comprised of a prepayment fee, the write-off of unamortized deferred financing fees, legal costs and other expenses. In 1997, the Company terminated certain mortgage loans, an unsecured loan and a revolving credit facility and obtained a commitment to pay off and retire another mortgage loan. The Company recorded an extraordinary loss of \$14.1 million which is comprised of prepayment fees, the write-off of unamortized deferred financing fees, legal costs and other expenses.
- (d) In April 1998, the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants issued Statement of Position 98-5, "Reporting on the Costs of Start-Up Activities" ("SOP 98-5"). SOP 98-5 requires that the net unamortized balance of all start-up costs and organizational costs be written off as a cumulative effect of a change in accounting principle and all future start-up costs and organizational costs be expensed. Consistent with SOP 98-5, in the second quarter of 1998, the Company has reported a cumulative effect of a change in accounting principle in the amount of approximately \$2.0 million to reflect the write-off of the unamortized balance of organizational costs on the Company's balance sheet.
- Management considers funds from operations ("FFO") to be one financial measure of the operating performance of an equity REIT that provides a relevant basis for comparison among REITs and it is presented to assist investors in analyzing the performance of the Company. The Company calculates FFO to be equal to net income, excluding gains (or losses) from debt restructuring and sales of depreciated property (the Company includes in FFO the gain from sales of land and sale of undepreciated property related to the Company's Integrated Industrial Solutions(TM) activities), plus depreciation and amortization, excluding amortization of deferred financing costs and interest rate protection agreements, and after adjustments for unconsolidated partnerships and joint ventures. FFO does not represent cash generated from operating activities in accordance with generally accepted accounting principles and is not necessarily indicative of cash available to fund cash needs, including the payment of dividends and distributions. FFO should not be considered as a substitute for net income as a measure of results of operations or for cash flow from operating activities calculated in accordance with generally accepted accounting principles as a measure of liquidity. FFO as calculated by the Company may not be comparable to similarly titled but differently calculated measures of other REITs. The following is a reconciliation of net income to FFO:

- (f) For purposes of computing the ratios of earnings to fixed charges and preferred stock dividends, earnings have been calculated by adding fixed charges (excluding capitalized interest) to income before extraordinary loss, cumulative effect of change in accounting principle, gain on sales of properties, restructuring and abandoned pursuit costs charge, disposition of interest rate protection agreement and income allocated to minority interest. Fixed charges consist of interest costs, whether expensed or capitalized, and amortization of interest rate protection agreement(s) and deferred financing costs.

RESULTS OF OPERATIONS

COMPARISON OF YEAR ENDED DECEMBER 31, 1999 TO YEAR ENDED DECEMBER 31, 1998

At December 31, 1999, the Company owned 967 in-service properties with approximately 67.0 million square feet of gross leasable area ("GLA"), compared to 988 in-service properties with approximately 69.4 million square feet of GLA at December 31, 1998. During 1999, the Company acquired 19 in-service properties containing approximately 1.4 million square feet of GLA and two properties under development, completed development of 19 properties and expansion of one property totaling approximately 3.1 million square feet of GLA and sold 56 properties totaling approximately 6.2 million square feet of GLA and several land parcels. The Company also took three properties out of service that are under redevelopment, comprising approximately .7 million square feet of GLA.

Rental income and tenant recoveries and other income increased by approximately \$24.5 million or 7.0% due primarily to an increase in average GLA for the year ended December 31, 1999 as compared to the year ended December 31, 1998 and an increase in same store revenue. Also, approximately \$1.5 million of this increase is due to additional acquisition, asset management and property management fees received from a joint venture entered into in September 1998 with an institutional investor (the "September 1998 Joint Venture") and the September 1999 Joint Venture (hereinafter defined) in fiscal year 1999. Rental income and tenant recoveries and other income from properties owned prior to January 1, 1998, increased by approximately \$7.7 million or 3.1% due primarily to rental rate increases and an increase in tenant recovery income charges related to the increase in operating expenses as discussed below.

Property expenses, which include real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses, decreased by approximately \$.5 million or .5% due primarily to a decrease in property management expense and a decrease in other expenses, offset by an increase in real estate taxes, repairs and maintenance and utilities expense due to an increase in average GLA for the year ended December 31, 1999 as compared to the year ended December 31, 1998. The majority of the decrease in property management expense is due to a decrease in the operational costs of the regional offices that manage the Company's properties primarily due to a reduced employee headcount. The majority of the decrease in other expense is due to a decrease in the provision for bad debts. Expenses from properties owned prior to January 1, 1998, increased by approximately \$.6 million or .9% due primarily to an increase in snow removal and related expenses incurred during the year ended December 31, 1999 as compared to the year ended December 31, 1998 for properties located in certain of the Company's metropolitan areas.

General and administrative expense increased by approximately \$.3 million due primarily to the adoption of Emerging Issues Task Force Issue No. 97-11, "Accounting for Internal Costs Relating to Real Estate Acquisitions" ("EITF 97-11"). EITF 97-11, effective March 19, 1998, required that internal costs of preacquisition activities incurred in connection with the acquisition of an operating property be expensed as incurred. Prior to March 19, 1998, the Company capitalized internal costs of preacquisition activities incurred in connection with the acquisition of operating properties.

Interest expense increased by approximately \$8.0 million for the year ended December 31, 1999 compared to the year ended December 31, 1998 due primarily to a higher average debt balance outstanding resulting from the issuance of unsecured debt to fund the acquisition and development of additional properties, slightly offset by an increase in capitalized interest for the year ended December 31, 1999 due to an increase in development activities. The average debt balances outstanding for the years ended December 31, 1999 and 1998 were approximately \$1.2 billion and \$1.1 billion, respectively.

Amortization of deferred financing costs increased by approximately \$.5 million due primarily to amortization of deferred financing costs relating to the issuance of additional senior unsecured debt to fund the acquisition and development of additional properties.

Depreciation and other amortization increased by approximately \$4.6 million due primarily to the additional depreciation and amortization related to the properties acquired or developed after December 31, 1997.

The \$11.9 million restructuring and abandoned pursuit costs charge for the year ended December 31, 1998 represents a charge in connection with the Company's restructuring, including approximately \$6.9 million in severance costs (of which approximately \$1.2 million is non-cash relating to immediate vesting of restricted stock) and approximately \$5.0 million in costs related to abandoned acquisitions.

Equity in income of joint ventures increased by approximately \$.3 million for the year ended December 31, 1999 compared to the year ended December 31, 1998. This increase is due to a full year of operations of the September 1998 Joint Venture in 1999 as opposed to a partial year of operations in 1998 and the start up of the September 1999 Joint Venture (hereinafter defined).

The \$8.5 million loss on disposition of interest rate protection agreements for the year ended December 31, 1998 represents the Company's settlement, through the Operating Partnership, of an interest rate protection agreement which was scheduled to expire on January 4, 1999. This agreement was entered into in December 1997 in anticipation of 1998 senior unsecured debt offerings. Due to the changing market conditions and the Company's expectation that it would not issue debt securities associated with the interest rate protection agreement, the Company settled its position in the interest rate protection agreement.

The \$29.8 million gain on sales of properties for the year ended December 31, 1999 resulted from the sale of 56 industrial properties and several land parcels. Gross proceeds from these sales were approximately \$245.8 million.

The \$5.3 million gain on sales of properties for the year ended December 31, 1998 resulted from the sale of 41 industrial properties and several land parcels. Gross proceeds from these sales were approximately \$99.9 million.

The \$2.0 million cumulative effect of change in accounting principle for the year ended December 31, 1998 is the result of the write-off of the unamortized balance of organizational costs on the Company's balance sheet due to the early adoption of Statement of Position 98-5, "Reporting on the Costs of Start-Up Activities" (SOP 98-5). SOP 98-5 requires that the net unamortized balance of all start-up costs and organizational costs be written off as a cumulative effect of a change in accounting principle and all future start-up costs and organizational costs be expensed.

COMPARISON OF YEAR ENDED DECEMBER 31, 1998 TO YEAR ENDED DECEMBER 31, 1997

At December 31, 1998, the Company owned 988 in-service properties containing approximately 69.4 million square feet of GLA, compared to 770 in-service properties with approximately 56.5 million square feet of GLA at December 31, 1997. During 1998, the Company acquired 247 properties containing approximately 12.3 million square feet of GLA, completed development of 12 properties and expansions of two properties totaling approximately 2.6 million square feet of GLA and sold 41 in-service properties totaling approximately 2.0 million square feet of GLA and several land parcels.

Rental income and tenant recoveries and other income increased by approximately \$139.3 million or 66.2% due primarily to the properties acquired or developed after December 31, 1996 (between January 1, 1997 and December 31, 1998, the Company acquired approximately \$1.4 billion of industrial properties). Revenues from properties owned prior to January 1, 1997 increased in 1998 over 1997 by approximately \$2.2 million or 1.5% due primarily to increased rental rates upon renewal or replacement of tenant leases offset by a decrease in tenant recovery income charges related to the decrease in operating expenses as discussed below.

Interest income-defeasance in 1997 represents interest income earned on U.S. Government securities and cash proceeds from such securities upon maturity that were pledged as collateral to legally defease the Company's \$300.0 million mortgage loan (the "1994 Defeased Mortgage Loan").

Property expenses, which include real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses, increased by approximately \$39.7 million or 66.5% due primarily to the properties acquired or developed after December 31, 1996 (between January 1, 1997 and December 31, 1998, the Company acquired approximately \$1.4 billion of industrial properties). Expenses from properties owned prior to January 1, 1997, decreased by approximately \$.5 million or 1.1% due primarily to a decrease in snow removal and related expenses incurred for properties located in certain of the Company's metropolitan areas during the year ended December 31, 1998 as compared to the year ended December 31, 1997.

General and administrative expense increased by approximately \$6.7 million, of which, approximately \$4.0 million is due primarily to the additional expenses associated with managing the Company's growing operations including additional professional fees relating to additional properties owned and additional personnel to manage and expand the Company's business. Approximately \$2.7 million of the increase is the result of the adoption of EITF 97-11, which required that internal costs of preacquisition activities incurred in connection with the acquisition of an operating property be expensed as incurred. Prior to March 19, 1998, the Company capitalized internal costs of preacquisition activities incurred in connection with the acquisition of operating properties.

Interest expense increased by approximately \$22.0 million for the year ended December 31, 1998 compared to the year ended December 31, 1997 due primarily to a higher average debt balance outstanding resulting from the issuance of unsecured debt to fund the acquisition and development of additional properties (between January 1, 1997 and December 31, 1998, the Company acquired approximately \$1.4 billion of industrial properties). The average debt balances outstanding for the years ended December 31, 1998 and 1997 were approximately \$1.1 billion and \$.8 billion, respectively.

Amortization of interest rate protection agreements and deferred financing costs decreased by approximately \$1.9 million due primarily to the full amortization of the deferred financing costs relating to the Company's 1994 Defeased Mortgage Loan which was paid off and retired on January 2, 1998, offset by additional amortization of deferred financing costs relating to the issuance of senior unsecured debt.

Depreciation and other amortization increased by approximately \$24.2 million due primarily to the additional depreciation and amortization related to the properties acquired or developed after December 31, 1996 (between January 1, 1997 and December 31, 1998, the Company acquired approximately \$1.4 billion of industrial properties).

The \$11.9 million restructuring and abandoned pursuit costs charge for the year ended December 31, 1998 represents a charge in connection with the Company's restructuring, including approximately \$6.9 million in severance costs (of which approximately \$1.2 million is non-cash relating to immediate vesting of restricted stock) and approximately \$5.0 million in costs related to abandoned acquisitions.

Equity in Income of Joint Venture of approximately \$.05 million for the year ended December 31, 1998 represents the Company's 10% equity interest in the income of the September 1998 Joint Venture.

The \$8.5 million loss on disposition of interest rate protection agreements for the year ended December 31, 1998 represents the Company's settlement, through the Operating Partnership, of an interest rate protection agreement which was scheduled to expire on January 4, 1999. This agreement was entered into in December 1997 in anticipation of 1998 senior unsecured debt offerings. Due to the changing market conditions and the Company's expectation that it would not issue debt securities associated with the interest rate protection agreement, the Company settled its position in the interest rate protection agreement

The \$1.4 million gain on disposition of interest rate protection agreements for the year ended December 31, 1997 represents the sale of the Company's interest rate protection agreements in April 1997. These agreements were entered into in July 1995 and effectively fixed the annual interest rate on the 1994 Defeased Mortgage Loan at 6.97% for six years through June 30, 2001.

The \$5.3 million gain on sales of properties for the year ended December 31, 1998 resulted from the sale of 41 properties and several parcels of land. Gross proceeds for these property sales totaled approximately \$99.9 million.

The \$5.0 million gain on sales of properties for the year ended December 31, 1997 resulted from the sale of ten in-service properties, one property held for redevelopment and several parcels of land. Gross proceeds for these property sales totaled approximately \$33.7 million.

The \$14.1 million extraordinary loss for the year ended December 31, 1997 represents the write-off of unamortized deferred financing costs, prepayment fees, legal fees and other costs incurred to terminate various mortgage loans, an unsecured loan and a revolving line of credit and the commitment to retire the 1994 Defeased Mortgage Loan.

The \$2.0 million cumulative effect of change in accounting principle for the year ended December 31, 1998 is the result of the write-off of the unamortized balance of organizational costs on the Company's balance sheet due to the early adoption of SOP 98-5.

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 1999, the Company's cash and cash equivalents was approximately \$2.6 million and restricted cash was approximately \$2.4 million. Included in restricted cash are approximately \$1.4 million of cash reserves required to be set aside under the Company's \$40.0 million mortgage loan (the "1995 Mortgage Loan") for payments of security deposit refunds, tenant improvements, capital expenditures, interest, real estate taxes, and insurance. The portion of the cash reserve relating to payments for capital expenditures, interest, real estate taxes, and insurance for properties collateralizing the 1995 Mortgage Loan is established monthly, distributed to the Company as such expenditures are made and is replenished to a level adequate to make the next periodic payment of such expenditures. The portion of the cash reserve relating to security deposit refunds for the tenants occupying the properties collateralizing the 1995 Mortgage Loan is adjusted as tenants turn over. Also included in restricted cash is approximately \$1.0 million of gross proceeds from the sales of certain properties. These sales proceeds will be disbursed as the Company exchanges into properties under Section 1031 of the Internal Revenue Code.

In March 2000, the Company's Board of Directors approved the repurchase of up to \$100 million of the Company's common stock. The Company will make purchases from time to time, if price levels warrant, in the open market or in privately negotiated transactions. Stock repurchases will be funded from internally generated funds.

YEAR ENDED DECEMBER 31, 1999

Net cash provided by operating activities of approximately \$176.9 million for the year ended December 31, 1999 was comprised primarily of net income before minority interest of approximately \$142.4 million and adjustments for non-cash items of approximately \$36.0 million, offset by the net change in operating assets and liabilities of approximately \$1.5 million. The adjustments for the non-cash items of approximately \$36.0 million are primarily comprised of depreciation and amortization of \$69.8 million, offset by the gain on sales of properties of \$29.8 million and the effect of the straight-lining of rental income of \$4.0 million.

Net cash used in financing activities of approximately \$186.1 million for the year ended December 31, 1999 was comprised primarily of repayments on mortgage loans payable, common and preferred stock dividends and unit distributions and the net repayments under the Company's \$300 million unsecured revolving credit facility (the "1997 Unsecured Acquisition Facility"), offset by proceeds from the exercise of employee stock options.

YEAR ENDED DECEMBER 31, 1998

Net cash used in investing activities of approximately \$535.6 million for the year ended December 31, 1998 was comprised primarily of the acquisition of real estate, development of real estate, capital expenditures related to the expansion and improvement of existing real estate, investment in the September 1998 Joint Venture and an increase in restricted cash from sales proceeds deposited with an intermediary for Section 1031 exchange purposes, offset by the net proceeds from the sales of real estate and the repayment of mortgage loans receivable.

Net cash provided by financing activities of approximately \$395.1 million for the year ended December 31, 1998 was comprised primarily of the net proceeds from the issuance of common stock, preferred stock and senior unsecured debt, proceeds from the exercise of employee stock options, net borrowings under the 1997 Unsecured Acquisition Facility and a decrease in restricted cash which was used to pay down and retire the 1994 Defeased Mortgage Loan, offset by repayments of mortgage loans and common and preferred stock dividends and unit distributions.

YEAR ENDED DECEMBER 31, 1997

Net cash provided by operating activities of approximately \$102.6 million for the year ended December 31, 1997 was comprised primarily of net income before minority interest of approximately \$57.3 million and adjustments for non-cash items of approximately \$48.9 million, offset by the net change in operating assets and liabilities of approximately \$3.6 million. FUNDS FROM OPERATIONS AND RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

Funds from operations increased by approximately \$17.9 million or 13.4% in 1999 compared to 1998 and increased by approximately \$40.8 million or 44.2% in 1998 compared to 1997 as a result of the factors discussed in the analysis of operating results above. Management considers funds from operations to be one financial measure of the operating performance of an equity REIT that provides a relevant basis for comparison among REITs and it is presented to assist investors in analyzing the performance of the Company. The Company calculates funds from operations to be equal to net income, excluding gains (or losses) from debt restructuring and sales of depreciated property (the Company includes in funds from operations the gain from sales of land and sale of undepreciated property related to the Company's Integrated Industrial Solutions(TM) activities), plus depreciation and amortization, excluding amortization of deferred financing costs and interest rate protection agreements, and after adjustments for unconsolidated partnerships and joint ventures. Funds from operations does not represent cash generated from operating activities in accordance with generally accepted accounting principles and is not necessarily indicative of cash available to fund cash needs, including the payment of dividends and distributions. Funds from operations should not be considered as a substitute for net income as a measure of results of operations or for cash flow from operating activities (calculated in accordance with generally accepted accounting principles) as a measure of liquidity. Funds from operations as calculated by the Company may not be comparable to similarly titled but differently calculated measures of other REITs.

The ratio of earnings to fixed charges and preferred stock dividends was 1.62 for the years ended December 31, 1999 and December 31, 1998 and 1.79 for the year ended December 31, 1997. The decrease in the earnings to fixed charges and preferred stock dividends between fiscal years 1998 and 1997 is primarily due to additional interest expense and preferred stock dividends incurred in fiscal year 1998 from additional debt and preferred stock issued to fund property acquisitions and developments, which is partially offset by higher net operating income from the property acquisitions as discussed in "Results of Operations" above.

In June 1997, the Financial Accounting Standards Board (the "FASB") issued Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information". This statement requires that a public business enterprise report financial and descriptive information about its reportable operating segments. Generally, financial information is required to be reported on the basis that it is used internally for evaluating segment performance and deciding how to allocate resources to segments. Management views the Company as a single segment.

MARKET RISK

The following discussion about the Company's risk-management activities includes "forward-looking statements" that involve risk and uncertainties. Actual results could differ materially from those projected in the forward-looking statements.

This analysis presents the hypothetical gain or loss in earnings, cash flows or fair value of the financial instruments and derivative instruments which are held by the Company at December 31, 1999 that are sensitive to changes in the interest rates. While this analysis may have some use as a benchmark, it should not be viewed as a forecast.

In the normal course of business, the Company also faces risks that are either non-financial or non-quantifiable. Such risks principally include credit risk and legal risk and are not represented in the following analysis.

At December 31, 1999, \$94.0 million (approximately 8.2% of total debt at December 31, 1999) of the Company's debt was variable rate debt (all of the variable rate debt relates to the Company's 1997 Unsecured Acquisition Facility) and \$1,053.6 million (approximately 91.8% of total debt at December 31, 1999) was fixed rate debt. The Company also had outstanding a written put and a written call option (collectively, the "Written Options") which were issued in conjunction with the initial offering of two tranches of unsecured debt. The Company's past practice has been to lock into fixed interest rates at issuance or fix the rate of variable rate debt through the use of interest rate protection agreements when interest rate market conditions dictate it is advantageous to do so. Currently, the Company does not enter into financial instruments for trading or other speculative purposes.

For fixed rate debt, changes in interest rates generally affect the fair value of the debt, but not earnings or cash flows of the Company. Conversely, for variable rate debt, changes in the interest rate generally do not impact the fair value of the debt, but would affect the Company's future earnings and cash flows. The interest rate risk and changes in fair market value of fixed rate debt generally do not have a significant impact on the Company until the Company is required to refinance such debt. See Note 6 to the consolidated financial statements for a discussion of the maturity dates of the Company's various fixed rate debt.

Based upon the amount of variable rate debt outstanding at December 31, 1999, a 10% increase or decrease in the interest rate on the Company's variable rate debt would decrease or increase, respectively, future net income and cash flows by approximately \$.7 million per year. A 10% increase in interest rates would decrease the fair value of the fixed rate debt at December 31, 1999 by approximately \$50.3 million to \$910.6 million. A 10% decrease in interest rates would increase the fair value of the fixed rate debt at December 31, 1999 by approximately \$56.1 million to \$1,017.0 million. A 10% increase in interest rates would decrease the fair value of the Written Options at December 31, 1999 by approximately \$1.6 million to \$2.4 million. A 10% decrease in interest rates would increase the fair value of the Written Options at December 31, 1999 by approximately \$2.6 million to \$6.6 million.

INVESTMENT IN REAL ESTATE, DEVELOPMENT OF REAL ESTATE AND SALES OF REAL ESTATE

During the year ended December 31, 1999, the Company purchased 19 in-service industrial properties, two industrial properties under redevelopment and several land parcels, for an aggregate purchase price of approximately \$75.2 million, excluding costs incurred in conjunction with the acquisition of the properties and land parcels.

During the year ended December 31, 1999, the Company sold 56 industrial properties and several land parcels. The aggregate gross sales price of these sales was approximately \$245.8 million. Approximately \$4.8 million of the gross proceeds from the sales of these properties was received from the September 1998 Joint Venture, (the Company sold two properties to the September 1998 Joint Venture at the Company's net book value).

The Company has committed to the construction of 23 development projects totaling approximately 3.3 million square feet of GLA for an estimated investment of approximately \$131.2 million. Of this amount, approximately \$48.5 million remains to be funded. These developments are expected to be funded with cash flow from operations, borrowings under the Company's 1997 Unsecured Acquisition Facility and proceeds from the sale of select properties of the Company.

From January 1, 2000 to March 10, 2000, the Company acquired or completed development of 11 industrial properties and acquired two land parcels for a total estimated investment of approximately \$33.5 million. The Company also sold six industrial properties and two land parcels for approximately \$41.5 million of gross proceeds.

REAL ESTATE MARKET STRATEGY

The Company's market strategy is to concentrate on the top 25 industrial real estate markets in the United States. These 25 markets were selected based upon (i) the strength of their industrial real estate fundamentals, including increased industrial demand expectations from e-commerce and supply chain management; (ii) their history and future outlook for continued economic growth and diversity; and (iii) a minimum market size of 100 million square feet of industrial space. Due to this new market strategy, the Company plans on exiting the markets of Cleveland, Columbus, Dayton, Des Moines, Grand Rapids, Hartford, New Orleans/Baton Rouge, and Long Island. The net proceeds from the sales of properties in these markets will be used to bolster the Company's holdings in Atlanta, Baltimore/Washington, Chicago, Cincinnati/Louisville, Dallas/Fort Worth, Denver, Detroit, Harrisburg/Central Pennsylvania, Houston, Indianapolis, Los Angeles, Milwaukee, Minneapolis, Nashville, Northern New Jersey, Philadelphia, Phoenix, Portland, Salt Lake City, St. Louis and Tampa and to potentially enter new markets which fit its market strategy.

REAL ESTATE HELD FOR SALE

At December 31, 1999, the Company had five industrial properties comprising approximately .8 million square feet of GLA held for sale. Net income (defined as total property revenues, less property expenses (which include real estate taxes, repairs and maintenance, property management, utilities, insurance and other expense) and depreciation and amortization) of the five industrial properties held for sale for the year ended December 31, 1999, 1998 and 1997 is approximately \$1.8 million, \$1.8 million and \$.7 million, respectively. Net carrying value of the five industrial properties held for sale at December 31, 1999 is approximately \$25.3 million. The five industrial properties were identified as held for sale during the three months ended December 31, 1999. There can be no assurance that such properties held for sale will be sold.

INVESTMENT IN JOINT VENTURE

On September 2, 1999, the Company, through a wholly-owned limited liability company in which the Operating Partnership is the sole member, entered into a new joint venture arrangement (the "September 1999 Joint Venture") with an institutional investor to invest in industrial properties. The Company, through wholly-owned limited liability companies of the Operating Partnership, owns a 10% equity interest in the September 1999 Joint Venture and provides property and asset management services to the September 1999 Joint Venture. On or after September 2001, under certain circumstances, the Company has the option of purchasing all of the properties owned by the September 1999 Joint Venture at a price to be determined in the future. The Company received approximately \$1.0 million (net of the intercompany elimination) in acquisition, asset management and property management fees in 1999 from the September 1999 Joint Venture. The Company, through a wholly-owned limited liability company in which the Operating Partnership is the sole member, also invested approximately \$1.8 million in the September 1999 Joint Venture. The Company accounts for the September 1999 Joint Venture whold of accounting. As of December 31, 1999, the September 1999 Joint Venture owned 39 industrial properties comprising approximately 1.2 million square feet of GLA.

MORTGAGE LOANS

On November 5, 1998, the Company, through the Operating Partnership, assumed a mortgage loan in the principal amount of \$1.3 million (the "Acquisition Mortgage Loan VIII"). The Acquisition Mortgage Loan VIII was collateralized by three properties in Richland Hills, Texas, bore interest at a fixed rate of 8.45% and provided for monthly principal and interest payments based on a 143-month amortization schedule. On August 2, 1999, the Company paid off and retired the Acquisition Mortgage Loan VIII.

ISSUANCE OF RESTRICTED STOCK AND EMPLOYEE STOCK OPTIONS

During the year ended December 31, 1999, the Company awarded 72,300 shares of restricted common stock to certain employees and 3,504 shares of restricted common stock to certain Directors. Other employees of the Company converted certain in-the-money employee stock options to 5,224 shares of restricted common stock. These shares of restricted common stock had a

fair value of approximately \$2.1 million on the date of grant. The restricted common stock vests over periods from five to ten years.

During the year ended December 31, 1999, the Company issued 1,041,567 non-qualified employee stock options to certain officers, Directors and employees of the Company. These non-qualified employee stock options vest over one year and have a strike price of \$25.13 - \$27.69 per share and expire ten years from the date of grant.

On January 18, 1999, the Company and the Operating Partnership paid a fourth quarter 1998 distribution of \$.60 per common share/unit, totaling approximately \$27.1 million. On April 19, 1999, the Company and the Operating Partnership paid a first quarter 1999 distribution of \$.60 per common share/unit, totaling approximately \$27.2 million. On July 19, 1999, the Company and the Operating Partnership paid a second quarter 1999 distribution of \$.60 per common share/unit, totaling approximately \$27.2 million. On October 18, 1999, the Company and the Operating Partnership paid a third quarter 1999 distribution of \$.60 per common share/unit, totaling approximately \$27.2 million. SHORT-TERM AND LONG-TERM LIQUIDITY NEEDS

The Company has considered its short-term (one year or less) liquidity needs and the adequacy of its estimated cash flow from operations and other expected liquidity sources to meet these needs. The Company believes that its principal short-term liquidity needs are to fund normal recurring expenses, debt service requirements and the minimum distribution required to maintain the

Company's REIT qualification under the Internal Revenue Code. The Company anticipates that these needs will be met with cash flows provided by operating activities.

The Company expects to meet long-term (greater than one year) liquidity requirements such as property acquisitions, developments, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements through the disposition of select assets, long-term secured and unsecured indebtedness and the issuance of additional equity securities. As of December 31, 1999 and March 10, 2000, \$589.2 million of common stock, preferred stock and depositary shares and \$100.0 million of debt securities were registered and unissued under the Securities Act of 1933, as amended. The Company also may finance the development or acquisition of additional properties through borrowings under the 1997 Unsecured Acquisition Facility. At December 31, 1999, borrowings under the 1997 Unsecured Acquisition Facility bore interest at a weighted average interest rate of 7.09%. As of March 10, 2000, the Company had approximately \$186.4 million available in additional borrowings under the 1997 Unsecured Acquisition Facility.

RELATED PARTY TRANSACTIONS

The Company often obtains title insurance coverage for its properties from an entity for which an independent Director of the Company became the President, Chief Executive Officer and a Director in 1996.

From time to time, the Company utilizes real estate brokerage services from CB Richard Ellis, Inc. for which a relative of one of the Company's officers/Directors is an employee.

On November 19, 1998, the Company sold two industrial properties to two limited partnerships, Roosevelt Glen Corporate Center ("Roosevelt") and Hartford Center Investment Company ("Hartford"), for a total consideration of approximately \$8.3 million. An entity in which the sole shareholders are an officer and Director and a former officer and Director ("TSIC") has a 11.638% general partner interest and a former officer and Director has a 75.585% limited partner interest in Roosevelt. TSIC has a 12.39% general partner interest and a former officer and Director has a 80.454% limited partner interest in Hartford. On December 4, 1998, the Company sold one industrial property to Eastgate Shopping Center Investment Co. ("Eastgate"), a limited partnership, for a total consideration of approximately \$2.4 million. TSIC has a 12.972% general partner interest and a former officer and Director has a 79.536% limited partner interest in Eastgate. In each case, the purchaser had the option of selling the properties back to the Company and the Company had the option of buying the properties back from the purchaser for a stipulated period of time. In January 2000, the purchasers exercised their options to sell the properties back to the Company. The gain on sale was deferred due to the existence of these options.

From time to time, the Company utilizes consulting services from the private consulting firm of one of the Company's Directors. For the year ended December 31, 1999, the Company has paid approximately \$.02 million of fees to this entity.

On September 2, 1999, the September 1999 Joint Venture purchased a 1,159,121 square foot industrial property portfolio located in Los Angeles, California for approximately \$63.9 million. An officer of the Company held ownership interests ranging between .004% and .13% in various entities that sold certain properties to the September 1999 Joint Venture.

On September 15, 1999, the Company sold nine industrial properties to an entity whose Chairman of the Board of Directors is also Chairman of the Board of Directors of the Company. The gross proceeds from the sales of these nine industrial properties approximated \$39.5 million and the gain of sales approximated \$14.6 million.

ENVIRONMENTAL

The Company incurred environmental costs of \$.6 million and \$.3 million in 1999 and 1998, respectively. The Company estimates 2000 costs of approximately \$1.0 million. The Company estimates that the aggregate cost which needs to be expended in 2000 and beyond with regard to currently identified environmental issues will not exceed approximately \$1.7 million, a substantial amount of which will be the primary responsibility of the tenant, the seller to the Company or another responsible party. This estimate was determined by a third party evaluation.

INFLATION

For the last several years, inflation has not had a significant impact on the Company because of the relatively low inflation rates in the Company's markets of operation. Most of the Company's leases require the tenants to pay their share of operating expenses, including common area maintenance, real estate taxes and insurance, thereby reducing the Company's exposure to increases in costs and operating expenses resulting from inflation. In addition, many of the outstanding leases expire within five years which may enable the Company to replace existing leases with new leases at higher base rentals if rents of existing leases are below the then-existing market rate.

OTHER

In June 1998, the FASB issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities". This statement, effective for fiscal years beginning after June 15, 2000, establishes accounting and reporting standards requiring that every derivative instrument, including certain derivative instruments imbedded in other contracts, be recorded in the balance sheet as either an asset or liability measured at its fair value. The statement also requires that the changes in the derivative's fair value be recognized in earnings unless specific hedge accounting criteria are met. The Company is currently assessing the impact of this new statement on its consolidated financial position, liquidity, and results of operations.

2. BASIS OF PRESENTATION

First Industrial Realty Trust, Inc. is the sole general partner of the Operating Partnership, with an approximate 83.9% ownership interest at December 31, 1999. Minority interest at December 31, 1999, represents the approximate 16.1% aggregate partnership interest in the Operating Partnership held by the limited partners thereof.

The consolidated financial statements of the Company at December 31, 1999 and 1998 and for each of the three years ended December 31, 1999 include the accounts and operating results of the Company and its subsidiaries. Such financial statements present the Company's 10% equity interests in the September 1998 Joint Venture (hereinafter defined) and the September 1999 Joint Venture (hereinafter defined) under the equity method of accounting. All significant intercompany transactions have been eliminated in consolidation.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In order to conform with generally accepted accounting principles, management, in preparation of the Company's financial statements, is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of December 31, 1999 and 1998, and the reported amounts of revenues and expenses for the years ended December 31, 1999, 1998 and 1997. Actual results could differ from those estimates.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Cash and Cash Equivalents

Cash and cash equivalents include all cash and liquid investments with an initial maturity of three months or less. The carrying amount approximates fair value due to the short maturity of these investments.

Investment in Real Estate and Depreciation

Purchase accounting has been applied when ownership interests in properties were acquired for cash. The historical cost basis of properties has been carried over when certain ownership interests were exchanged for Operating Partnership units on July 1, 1994 and purchase accounting has been used for all other properties that were subsequently acquired in exchange for Operating Partnership units.

Real estate assets are carried at cost. The Company reviews its properties on a quarterly basis for impairment and provides a provision if impairments are determined. First, to determine if impairment may exist, the Company reviews its properties and identifies those which have had either an event of change or event of circumstances warranting further assessment of recoverability. Then, the Company estimates the fair value of those properties on an individual basis by capitalizing the expected net operating income. Such amounts are then compared to the property's depreciated cost to determine whether an impairment exists. For properties management considers held for sale, the Company ceases depreciating the properties and values the properties at the lower of depreciated cost or fair value.

Interest expense, real estate taxes and other directly related expenses incurred during construction periods are capitalized and depreciated commencing with the date placed in service, on the same basis as the related assets. Depreciation expense is computed using the straight-line method based on the following useful lives:

	Years
Buildings and Improvements	31.5 to 40
Land Improvements	15
Furniture, Fixtures and Equipment	5 to 10

Construction expenditures for tenant improvements, leasehold improvements and leasing commissions are capitalized and amortized over the terms of each specific lease. Repairs and maintenance are charged to expense when incurred. Expenditures for improvements are capitalized.

Deferred Financing Costs

Deferred financing costs include fees and costs incurred to obtain long-term financing. These fees and costs are being amortized over the terms of the respective loans. Accumulated amortization of deferred financing costs was \$2,608 and \$1,246 at December 31, 1999 and 1998, respectively. Unamortized deferred financing fees are written-off when debt is retired before the maturity date (see Note 12).

Investments in Joint Ventures

Investments in Joint Ventures represents the Company's 10% equity interests in the September 1998 Joint Venture (hereinafter defined) and the September 1999 Joint Venture (hereinafter defined). The Company accounts for its Investments in Joint Ventures under the equity method of accounting. Under the equity method of accounting, the Company's share of earnings or losses of the September 1998 Joint Venture and the September 1999 Joint Venture is reflected in income as earned and contributions or distributions increase or decrease, respectively, the Company's Investments in Joint Ventures as paid or received, respectively.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Revenue Recognition

Rental income is recognized on a straight-line method under which contractual rent increases are recognized evenly over the lease term. Tenant recovery income includes payments from tenants for taxes, insurance and other property operating expenses and is recognized as revenue in the same period the related expenses are incurred by the Company.

The Company provides an allowance for doubtful accounts against the portion of tenant accounts receivable which is estimated to be uncollectible. Accounts receivable in the consolidated balance sheets are shown net of an allowance for doubtful accounts of \$2,000 as of December 31, 1999 and December 31, 1998.

GAIN ON SALES OF PROPERTIES

Gains on sales of properties are recognized using the full accrual method provided that various criteria relating to the terms of the transactions and any subsequent involvement by the Company with the properties sold are met. Gains relating to transactions which do not meet the established criteria are deferred and recognized when the criteria are met or by using the installment or deposit methods of profit recognition, as appropriate in the circumstances. As the assets are sold, their costs and related accumulated depreciation are removed from the accounts with resulting gains or losses reflected in net income or loss. Estimated future costs to be incurred by the Company after completion of each sale are included in the determination of the gains on sales.

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Code. As a result, the Company generally is not subject to federal income taxation at the corporate level to the extent it distributes annually at least 95% of its REIT taxable income, as defined in the Code, to its stockholders and satisfies certain other requirements. Accordingly, no provision has been made for federal income taxes in the accompanying consolidated financial statements.

The Company and certain of its subsidiaries are subject to certain state and local income, excise and franchise taxes. The provision for such state and local taxes has been reflected in general and administrative expense in the consolidated statements of operations and has not been separately stated due to its insignificance.

For federal income tax purposes, the cash distributions paid to stockholders may be characterized as ordinary income, return of capital (generally non-taxable) or capital gains. Distributions paid for the year ended December 31, 1999, totaling \$92,150, are characterized 88.3% (\$2.14 per share) as ordinary income and 11.7% (\$.28 per share) as return of capital. Distributions paid for the year ended December 31, 1998, totaling \$82,320, are characterized 63.9% (\$1.40 per share) as ordinary income, 34.6% (\$.76 per share) as return of capital and 1.5% (\$.03 per share) as long-term capital gain. Distributions paid for the year ended December 31, 1997 totaling \$65,322 are characterized 62.30% (\$1.274 per share) as ordinary income, 35.60% (\$.728 per share) as return of capital and 2.10% (\$.043 per share) as long-term capital gain.

Earnings Per Common Share

Net income per weighted average share - basic is based on the weighted average common shares outstanding. Net income per weighted average share - diluted is based on the weighted average common shares outstanding plus the effect of in-the-money employee stock options. See Note 13 for further disclosures.

Fair Value of Financial Instruments

The Company's financial instruments include short-term investments, tenant accounts receivable, mortgage notes receivable, accounts payable, other accrued expenses, mortgage loans payable, acquisition facility payable, senior unsecured debt and certain put and call options issued in conjunction with two offerings of unsecured debt. The fair value of the short-term investments, tenant accounts receivable, mortgage notes receivable, accounts payable and other accrued expenses was not materially different from their carrying or contract values. See Note 6 for the fair values of the mortgage loans payable, acquisition facility payable, senior unsecured debt and certain put and call options issued in conjunction with initial offerings of unsecured debt.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Derivative Financial Instruments

The Company's interest rate protection agreements (the "Agreements") were used to limit the interest rate on the Company's \$300,000 mortgage loan and fix the interest rate on anticipated offerings of senior unsecured debt (see Note 9). Receipts or payments resulting from the Agreements that were used to limit the interest rate on the Company's \$300,000 mortgage loan were recognized as adjustments to interest expense. Upon termination of these Agreements, the Company recognized a gain (loss) from the disposition of the Agreements equal to the amount of cash received or paid at termination less the carrying value of the Agreements on the Company's balance sheet. Receipts or payments that resulted from the settlement of Agreements used to fix the interest rate on anticipated offerings of senior unsecured debt are being amortized over the life of the senior unsecured debt that the Agreements were used to hedge as an adjustment to interest expense using the effective interest method (or the straight line method if this method is not materially different from the effective interest method). Any Agreements which no longer qualify for hedge accounting are marked to market and any gain or loss is recognized immediately. The credit risks associated with the Agreements were controlled through the evaluation and monitoring of the creditworthiness of the counterparty. In the event that the counterparty failed to meet the terms of the Agreements, the Company's exposure was limited to the current value of the interest rate differential, not the notional amount, and the Company's carrying value of the Agreements on the balance sheet. The Agreements were executed with creditworthy financial institutions.

Segment Reporting

In June 1997, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information". This statement requires that a public business enterprise report financial and descriptive information about its reportable operating segments. Generally, financial information is required to be reported on the basis that it is used internally for evaluating segment performance and deciding how to allocate resources to segments. Management views the Company as a single segment.

Recent Accounting Pronouncements

In June 1998, the FASB issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities". This statement, effective for fiscal years beginning after June 15, 2000, establishes accounting and reporting standards requiring that every derivative instrument, including certain derivative instruments imbedded in other contracts, be recorded in the balance sheet as either an asset or liability measured at its fair value. The statement also requires that the changes in the derivative's fair value be recognized in earnings unless specific hedge accounting criteria are met. The Company is currently assessing the impact of this new statement on its consolidated financial position, liquidity, and results of operations.

Reclassification

Certain 1998 and 1997 items have been reclassified to conform to the 1999 presentation.

The Company has an active sales program through which it is continually engaged in identifying and evaluating its current portfolio for potential sales candidates in order to redeploy capital. At December 31, 1999, the Company had five industrial properties comprising approximately .8 million square feet (unaudited) of GLA held for sale. The five industrial properties were identified as held for sale during the three months ended December 31, 1999. There can be no assurance that such properties held for sale will be sold.

6. MORTGAGE LOANS, NET, SENIOR UNSECURED DEBT, NET, ACQUISITION FACILITIES PAYABLE AND INTEREST RATE PROTECTION AGREEMENTS

Mortgage Loans, Net

On June 30, 1994, the Company, through the Financing Partnership, entered into a \$300,000 mortgage loan (the "1994 Mortgage Loan"). On April 4, 1997, the Company purchased U.S. Government securities as substitute collateral to execute a legal defeasance of the \$300,000 mortgage loan (the "1994 Defeased Mortgage Loan") (See Note 12). Upon the execution of the legal defeasance, 180 of the 195 properties collateralizing the 1994 Defeased Mortgage Loan were released leaving 15 properties and the U.S. Government securities as collateral. On January 2, 1998, the Company used the gross proceeds from the maturity of the U.S. Government securities to pay off and retire the 1994 Defeased Mortgage Loan. Due to the retirement of the 1994 Defeased Mortgage Loan, the remaining 15 properties were released on January 2, 1998. The 1994 Defeased Mortgage Loan provided for interest only payments at a floating interest rate of LIBOR plus 1.40% which such interest rate had been limited to 7.2% from June 30, 1994 through June 30, 1995 through the use of the 1994 Interest Rate Protection Agreement (hereinafter defined). From July 1, 1995 through May 15, 1997, the 1994 Defeased Mortgage Loan's interest rate had been effectively fixed at the rate of 6.97% through the use of the 1995 Interest Rate Protection Agreements (hereinafter defined).

6. MORTGAGE LOANS, NET, SENIOR UNSECURED DEBT, NET, ACQUISITION FACILITIES PAYABLE AND INTEREST RATE PROTECTION AGREEMENTS, CONTINUED

From May 16, 1997 through December 31, 1997, the 1994 Defeased Mortgage Loan's interest rate had been limited to 7.2% through the use of the 1997 Interest Rate Protection Agreement (hereinafter defined).

On December 29, 1995, the Company, through the Mortgage Partnership, entered into a \$40,200 mortgage loan (the"1995 Mortgage Loan"). In the first quarter of 1996, the Company made a one time paydown of \$200 on the 1995 Mortgage Loan which decreased the outstanding balance to \$40,000. The 1995 Mortgage Loan matures on January 11, 2026 and provides for interest only payments through January 11, 1998, after which monthly principal and interest payments are required based on a 28-year amortization schedule. The interest rate under the 1995 Mortgage Loan is fixed at 7.22% per annum through January 11, 2003. After January 11, 2003, the interest rate adjusts through a predetermined formula based on the applicable Treasury rate. The 1995 Mortgage Loan is collateralized by 23 properties held by the Mortgage Partnership. The 1995 Mortgage Loan may be prepaid after January 2003.

Under the terms of the 1995 Mortgage Loan, certain cash reserves are required to be and have been set aside for refunds of security deposits and payments of capital expenditures, interest, real estate taxes and insurance. The amount of cash reserves segregated for security deposits is adjusted as tenants turn over. The amounts included in the cash reserves relating to payments of capital expenditures, interest, real estate taxes and insurance were determined by the lender and approximate the next periodic payment of such items. At December 31, 1999 and 1998, these reserves totaled \$1,425 and \$3,286, respectively, and are included in Restricted Cash. Such cash reserves were invested in a money market fund at December 31, 1999. The maturity of these investments is one day; accordingly, cost approximates fair value.

On December 14, 1995, the Company, through the Harrisburg Partnership, entered into a \$6,650 mortgage loan (the "Harrisburg Mortgage Loan") that was collateralized by first mortgage liens on three properties in Harrisburg, Pennsylvania. The Harrisburg Mortgage Loan bore interest at a rate based on LIBOR plus 1.5% or prime plus 2.25%, at the Company's option, and provided for interest only payments through May 31, 1996, with monthly principal and interest payments required subsequently based on a 26.5-year amortization schedule. On December 15, 1997, the Company paid off and retired the Harrisburg Mortgage Loan (see Note 12).

On March 20, 1996, the Company, through the Operating Partnership and the Indianapolis Partnership, entered into a \$36,750 mortgage loan (the "CIGNA Loan") that is collateralized by seven properties in Indianapolis, Indiana and three properties in Cincinnati, Ohio. The CIGNA Loan bears interest at a fixed interest rate of 7.50% and provides for monthly principal and interest payments based on a 25-year amortization schedule. The CIGNA Loan matures on April 1, 2003. The CIGNA Loan may be prepaid only after April 1999 in exchange for the greater of a 1% prepayment fee or a yield maintenance premium.

On March 20, 1996, the Company, through the Operating Partnership, assumed a \$6,424 mortgage loan and a \$2,993 mortgage loan (together, the "Assumed Loans") that are collateralized by 13 properties in Indianapolis, Indiana and one property in Indianapolis, Indiana, respectively. The Assumed Loans bear interest at a fixed rate of 9.25% and provide for monthly principal and interest payments based on a 16.75-year amortization schedule. The Assumed Loans mature on January 1, 2013. The Assumed Loans may be prepaid only after December 1999 in exchange for the greater of a 1% prepayment fee or a yield maintenance premium.

In conjunction with an acquisition of a portfolio of properties on January 31, 1997, the Company, through the Operating Partnership, assumed two mortgage loans in the amount of \$3,800 (the "LB Mortgage Loan I") and \$705 (the "LB Mortgage Loan II"). The LB Mortgage Loan I, which was collateralized by a property located in Long Island, New York and provided for interest only payments prior to its maturity date of July 11, 1998, was paid off and retired by the Company on December 19, 1997 (see Note 12). Shareholders' Rights Plan

On September 4, 1997, the Board of Directors of the Company declared a dividend distribution of one Preferred Share Purchase Right ("Right") for each outstanding share of Common Stock. The dividend distribution was made on October 20, 1997 to stockholders of record as of the close of business on October 19, 1997. In addition, a Right will attach to each share of Common Stock issued in the future. Each Right entitles the registered holder to purchase from the Company one one-hundredth of a share of Junior Participating Preferred Stock (the "Junior Preferred Stock"), at a price of \$125 per one one-hundredth of a share (the "Purchase Price"), subject to adjustment. The Rights become exercisable only if a person or group of affiliated or associated persons (an "Acquiring Person") acquires, or obtains the right to acquire, beneficial ownership of Common Stock or other voting securities ("Voting Stock") that have 15% or more of the voting power of the outstanding shares of Voting Stock, or if an Acquiring Person commences or makes an announcement of an intention to commence a tender offer or exchange offer to acquire beneficial ownership of Voting Stock that have 15% or more of the voting power of the outstanding shares of Voting Stock. The Rights will expire on October 19, 2007, unless redeemed earlier by the Company at \$.001 per Right, or exchanged by the Company at an exchange ratio of one share of Common Stock per Right.

In the event that a person becomes an Acquiring Person, each holder of a Right, other than the Acquiring Person, is entitled to receive, upon exercise, (1) Common Stock having a value equal to two times the Purchase Price of the Right or (2) common stock of the acquiring company having a value equal to two times the Purchase Price of the Right.

The Junior Preferred Stock ranks junior to all other series of the Company's preferred stock with respect to payment of dividends and as to distributions of assets in liquidation. Each share of Junior Preferred Stock has a quarterly dividend rate per share equal to the greater of \$1.00 or 100 times the per share amount of any dividend (other than a dividend payable in shares of Common Stock or a subdivision of the Common Stock) declared on the Common Stock, subject to certain adjustments. In the event of liquidation, the holder of the Junior Preferred Stock is entitled to receive a preferred liquidation payment per share of \$1.00 (plus accrued and unpaid dividends) or, if greater, an amount equal to 100 times the payment to be made per share of Common Stock, subject to certain adjustments.

The Company maintains two stock incentive plans (the "Stock Incentive Plans") which are administered by the Compensation Committee of the Board of Directors. There are approximately 7.7 million shares reserved under the Stock Incentive Plans. Only officers and other employees of the Company and its affiliates generally are eligible to participate in the Stock Incentive Plans. However, Independent Directors of the Company receive automatic annual grants of options to purchase 10,000 shares at a per share exercise price equal to the fair market value of a share on the date of grant.

The Stock Incentive Plans authorize (i) the grant of stock options that qualify as incentive stock options under Section 422 of the Code, (ii) the grant of stock options that do not so qualify, (iii) restricted stock awards, (iv) performance share awards and (v) dividend equivalent rights. The exercise price of stock options will be determined by the Compensation Committee, but may not be less than 100% of the fair market value of the shares on the date of grant. Special provisions apply to awards granted under the Stock Incentive Plans in the event of a change in control in the Company. As of December 31, 1999, stock options covering 2.8 million shares were outstanding and stock options covering 4.4 million shares were available under the Stock Incentive Plans. 16. RELATED PARTY TRANSACTIONS

The Company often obtains title insurance coverage for its properties from an entity for which an independent Director of the Company became the President, Chief Executive Officer and a Director in 1996.

From time to time, the Company utilizes real estate brokerage services from CB Richard Ellis, Inc. for which a relative of one of the Company's officers/Directors is an employee.

On November 19, 1997, the Company exercised an option that was granted on March 19, 1996 to purchase a 100,000 square foot (unaudited) bulk warehouse property located in Indianapolis, Indiana for approximately \$3,338. The property was purchased from a partnership in which one of the Company's former officers owned a 33.0% interest.

On July 16, 1998, the Company, through the Operating Partnership, completed an acquisition of a real estate firm of which an officer of the Company owned a 25% interest. Gross proceeds to the real estate firm totaled approximately \$2,349. In conjunction with the acquisition of the real estate firm, the Company also acquired an industrial property from this same entity for a purchase price of approximately \$3,248, excluding costs incurred in connection with the acquisition of the property.

On June 23, 1998, the Company, through the Operating Partnership, purchased a 292,471 square foot (unaudited) light industrial property located in Denver, Colorado for approximately \$12,206. The property was purchased from a company in which one of the Company's officers owned a 12.08% interest.

Of the 247 industrial properties purchased by the Company during the year ended December 31, 1998, four industrial properties were purchased from Western Suburban Industrial Investments Limited Partnership ("Western") in which the sole general partner, having a 5% interest, was Tomasz/Shidler Investment Corporation, the sole shareholders of which were a Director of the Company and a former Director/officer of the Company who also had a 53% and 32% limited partnership interest in Western, respectively. Further, an additional Director/officer of the Company was a limited partner in Western having an interest of 2%. The aggregate purchase price for this acquisition totaled approximately \$7,900, excluding costs incurred in conjunction with the acquisition of the properties.

On November 19, 1998, the Company sold two industrial properties to two limited partnerships, Roosevelt Glen Corporate Center ("Roosevelt") and Hartford Center Investment Company ("Hartford"), for a total consideration of approximately \$8,341. An entity in which the sole shareholders are a officer and Director and a former officer and Director ("TSIC") has a 11.638% general partner interest and a former officer and Director has a 75.585% limited partner interest in Roosevelt. TSIC has a 12.39% general partner interest and a former officer and Director has a 80.454% limited partner interest in Hartford. On December 4, 1998, the Company sold one industrial property to Eastgate Shopping Center Investment Co. ("Eastgate"), a limited partnership, for a total consideration of approximately \$2,360. TSIC has a 12.972% general partner interest and a former officer and Director has a 79.536% limited partner interest in Eastgate. In each case, the purchaser had the option of selling the properties back to the Company and the Company had the option of buying the properties back from the purchaser for a stipulated period of time. In January 2000, the purchasers exercised their options to sell the properties back to the Company. The gain on sale was deferred due to the existence of these options.

From time to time, the Company utilizes consulting services from the private consulting firm of one of the Company's Directors. For the year ended December 31, 1999, the Company has paid approximately \$15 of fees to this entity.

On September 2, 1999, the September 1999 Joint Venture purchased a 1,159,121 square foot (unaudited) industrial property portfolio located in Los Angeles, California for approximately \$63,901. 18. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company is involved in legal actions arising from the ownership of its properties. In management's opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on the consolidated financial position, operations or liquidity of the Company.

Thirty-eight properties have leases granting the tenants options to purchase the property. Such options are exercisable at various times at appraised fair market value or at a fixed purchase price generally in excess of the Company's depreciated cost of the asset. The Company has no notice of any exercise of any tenant purchase option.

The Company has committed to the construction of 23 industrial properties totaling approximately 3.3 million square feet (unaudited) of GLA. The estimated total construction costs are approximately \$131,194 (unaudited). These developments are expected to be funded with cash flow from operations as well as borrowings under the 1997 Unsecured Acquisition Facility.

A \$980 letter of credit was required under the original issuance of the Series A Preferred Stock to guarantee the payment of one quarter's dividend on the Series A Preferred Stock. The Guarantee Agent of the Series A Preferred Stock is the beneficiary of this letter of credit which expires on December 31, 2000. The remaining \$166 of outstanding letters of credit were required by municipalities for development purposes. They expire between February 28, 2000 and January 31, 2001.
